
NATIONAL INSTITUTE OF ALLERGY AND INFECTIOUS DISEASES, “NIAID BLUE RIBBON PANEL ON VACCINE RESEARCH: SUMMARY”

In March 1993 the National Institute of Allergy and Infectious Diseases convened a panel to assist in identifying priorities for the use of anticipated additional resources in FY 1993 and FY 1994. The report of that panel is reproduced in its entirety below. Research priorities and development strategies for HIV vaccines are contained in the “NIAID HIV/AIDS Research Agenda,” (National Institute of Allergy and Infectious Disease, 1993. Bethesda, MD: NIAID, National Institutes of Health)

SUMMARY

NIAID BLUE RIBBON PANEL ON VACCINE RESEARCH

March 26, 1993
